Learning Community Builder
Grant Application

Students applying for Learning Community Builder grants must follow the submission instructions described in the Learning Community Builder Call for Proposals.

Instructions: Complete this form and email to kumats@uta.edu before the application submission deadline

Eligibility

In which College is your doctoral program or postdoctoral research position?

Postdoctoral researchers and students who are currently enrolled in a STEM PhD program are eligible to receive a LCB Grant.

Date (mm/dd/yyyy)

Name

ID Number (1000#)

E-mail

Recommendation

Please list the name and contact information of a faculty member who is willing to speak to the selection committee regarding your ability to implement the proposal you are submitting.

Name

Title

Email Address

Phone Number

Please describe your relationship with the faculty member. For example, how long have you known him/her and in what capacity.

Learning Community Proposal

Please review the missions of the CIRTL-UTA program and the CIRTL Network before completing the following information.

Name of Proposed Learning Community

Briefly describe the primary focus of your proposed Learning Community.

Briefly describe how the proposed Learning Community aligns with the mission of CIRTL-UTA and the CIRTL Network.

Briefly describe the population that your Learning Community would serve and your plan to encourage participation.

How many students to you expect to participate?

Describe when and how often you expect the Learning Community to meet.
